Evening Brief

Date: Monday August 28, 2017

Weather Summary

***** High Risk Near Record Heat/High Haines Indices Tue for Most of the Great Basin *****

***** High Risk for Lightning over Northeast Nevada/Idaho/Nrn Utah and Wrn WY Tue-Wed *****

***** High Risk for Gusty Winds 15-30 mph Wrn NV Wed *****

High pressure in place over the Great Basin will lead to unusually hot and dry conditions across much of the area. Storms will develop Tuesday afternoon across portions of northeast Nevada, northwest Utah and southeastern Idaho. Storms will be mostly isolated in coverage. Storms will continue overnight into Wednesday with much greater thunderstorm coverage Wednesday.

Dry thunderstorms are expected on Wednesday across much of the northern half of Nevada, southern Idaho and northwest Utah. Gusty winds will develop across western Nevada on Wednesday afternoon, with speeds in the 20 to 25 mph range possible.

Storms will develop again Thursday across much of southeastern Utah, southeastern Idaho, and portions of Wyoming. Dry storms are still possible on Thursday, but will be trending wetter.

High pressure will build across the Great Basin Friday through early next week, bringing a return of abnormally hot and dry conditions.

Preparedness Levels

Great Basin	3
National	5

Great Basin Fire Activity (from Irwin): Light Activity

New Fires and Acres: 15 fires for 215.83 acres; 10,454 acres large fire growth; 2 new large fires

Resources:

- Crews: 9 T1 IHCs in GB: 4 Committed, 3 Day Off.
 - GBCC has committed an estimated 52+ Type 3, 4, 6 engines.
 - 2-T1 and 6-T2 helicopters are available in GACC.
-

Great Basin Fire Potential Summary

With thunderstorms in the forecast for most of the area, some slight moderation of fuels is possible in areas that get low end wetting rains from any thunderstorms. However, fuels in many areas will range from normal late summer dryness, to near record levels, with the driest fuels across the mountains of Central Idaho.

We continue to have a Great Basin Fuels and Fire Behavior Advisory in effect for Nevada, Idaho and Utah, available at the following link:

https://www.predictiveservices.nifc.gov/fuels_fire-danger/GB_Fuels_and_Fire_Behavior_Advisory.pdf
